

FMDJ9303 Traktor DJ Studio V3 Setup

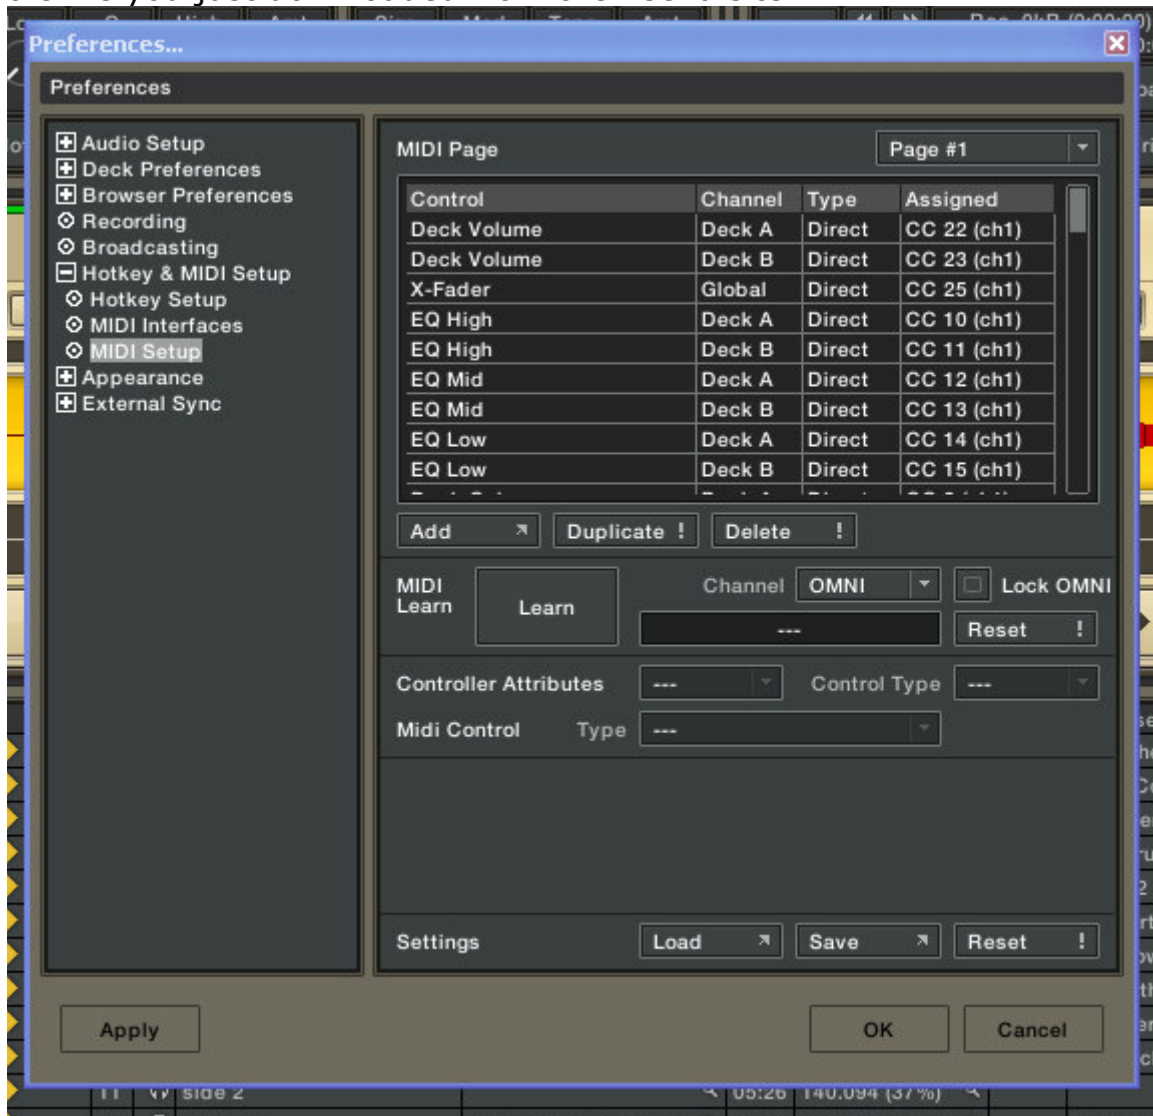

Here are some helpful hints on how to get your FMDJ9303 setup with Traktor V3

1. Download the latest Traktor DJ Studio V3 tks file from <http://www.feena-electronics.com>.

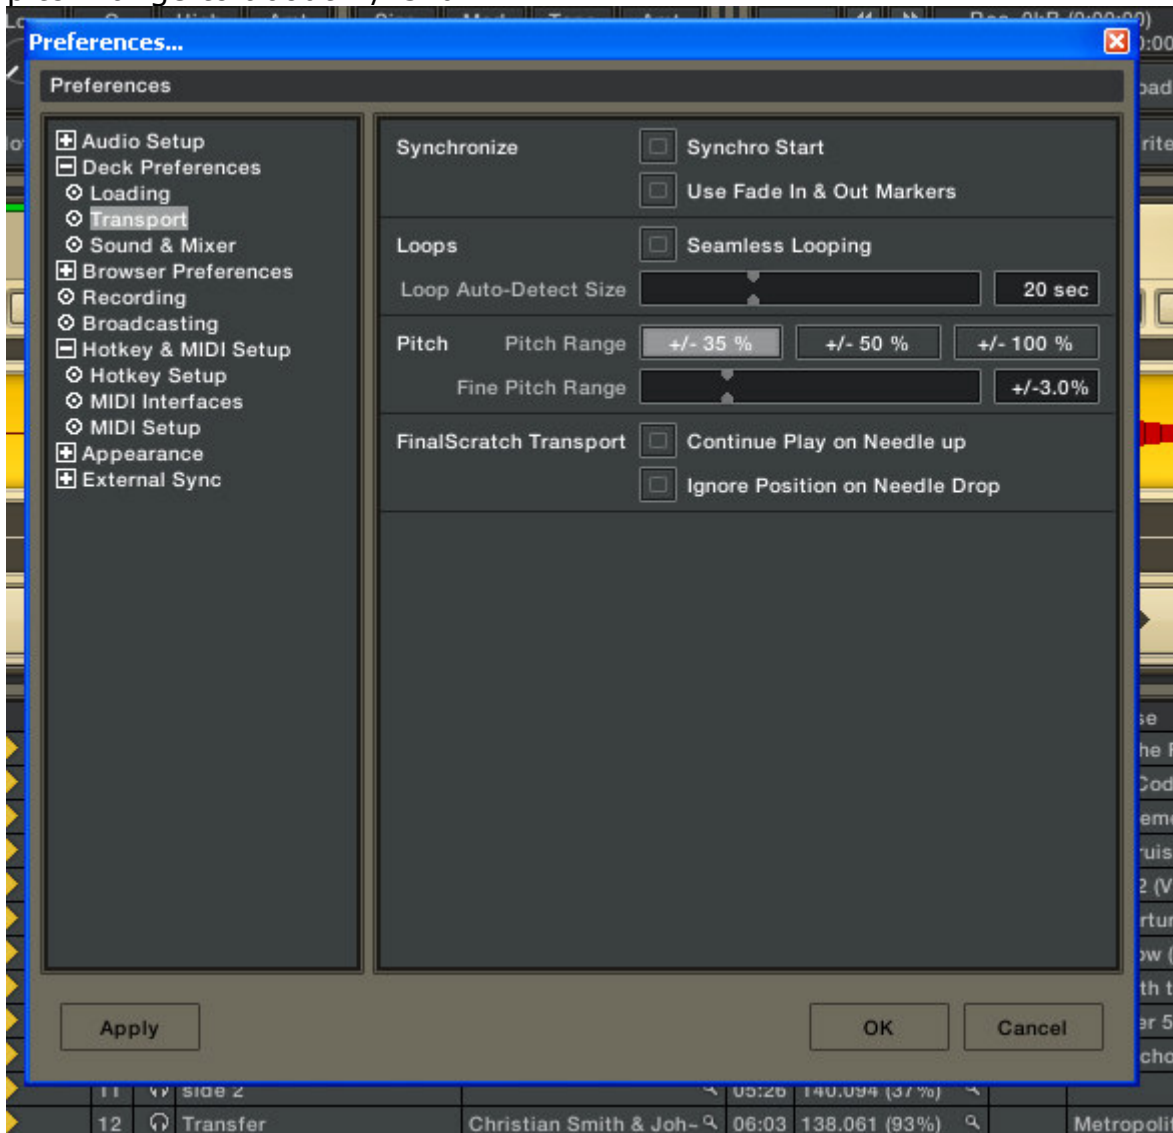

2. Go to the **Midi Interfaces** section under **Hotkey & Midi Setup** in the **Preferences** dialog. Double click the "USB Audio Device."

3. Go to the **Midi Setup** section under **Hotkey & Midi Setup** in the **Preferences** dialog. Press the **Load** button near the bottom and select the **tk** file you just downloaded from the Feena site.

4. Go to the **Transport** section under **Deck Preferences** in the **Preferences** dialog. Here you should set the coarse pitch range to $\pm 35\%$, and the fine pitch range to about $\pm 3\%$.

5. Click **Apply** at the bottom of the **Preferences** dialog and then press ok.
